

HMT is the eldest, and one of the largest, independent contract ASIC design houses and producers in Europe, with over 500 ASIC developments brought into series production since 1978.

HMT specializes in “mixed signal” ASICs, modules and microelectronic systems, particularly for sensors and actuators for the industrial, automotive, avionics and imaging markets.

In order to ensure smooth production throughput in large quantities, we are looking for a committed and reliable personality as

ASIC Production Engineer (m/f/d) – 100%

Your tasks

- Operate and oversee the full testing flow of ASICs
- Incoming inspection of the wafers and components
- Handling, machine set-up and maintenance
- Measurement and analysis
- Production follow-up
- Wafer map creation
- Packing of the wafers and components

What you bring

- Bachelor's or Master's degree in Electrical/Mechanical Engineering, or related technical field
- 5+ or more years of experience in Production environment
- Continuous improvement mindset
- Machinery understanding and maintenance skills
- Knowledge of process control and software tools will be an advantage
- Rigorous and strong attention to detail
- English, French or German of advantage
- Willingness to work extra shifts on weekends to ensure continuous coverage of 24/7 wafer processing operations

What we offer

- Future-oriented corporate culture
- Challenging position in an expanding department, in a growing company
- Daily contact with innovative technology
- Attractive and dynamic working environment, with team members from all over the world
